American Colonies Alan Taylor 2002-07-30 A multicultural, multinational history of colonial America from the Pulitzer Prize-winning author of *The Internal Enemy* and *American Revolutions* In the first volume in the Penguin History of the United States, edited by Eric Foner, Alan Taylor challenges the traditional story of colonial history by examining the many cultures that helped make America, from the native inhabitants from millennia past, through the decades of Western colonization and conquest, and across the entire continent, all the way to the Pacific coast. Transcending the usual Anglocentric version of our colonial past, he recovers the importance of Native American tribes, African slaves, and the rival empires of France, Spain, the Netherlands, and even Russia in the colonization of North America. Moving beyond the Atlantic seaboard to examine the entire continent, *American Colonies* reveals a pivotal period in the global interaction of peoples, cultures, plants, animals, and microbes. In a vivid narrative, Taylor draws upon cutting-edge scholarship to create a timely picture of the colonial world characterized by an interplay of freedom and slavery, opportunity and loss. "Formidable . . . provokes us to contemplate the ways in which residents of North America have dealt with diversity." -The New York Times Book Review

The Lonely Mind of God Sherman O'Brien 2021-01-26 Current students of philosophy or armchair philosophers... Want the answer to the Primordial Existential Question: Why is there something rather than nothing? While history has produced no shortage of attempted answers, clearly none is the answer. Now comes the unique perspective of acosmism to provide a complete and plausible answer. After a lifetime of reflection, acosmist Sherman O'Brien offers this analysis of the issues and a thoughtful, reasoned answer to philosophy's most vexing question. The acosmic answer requires no faith whatsoever, either in supernatural or unexplained causes; in fact, it discourages it. Acosmism rejects both traditional religion and philosophically neglectful science. As a metaphysical system, it is based on an epistemological insight, with implications for immortality, determinism, ethics, and ultimate purpose. Reasoned wholly from the ground up, its conclusion is the very meaning of

existence. The solution to the Omniscience Riddle becomes the key to understanding how the question is best stated and understood. This book represents one person's effort to make sense of what is true and what only seems to be so. Why is there something rather than nothing? What is your potential role in the entirety of experience? This foray into acosmism offers a path to the genuine understanding of both existence and reality. Note: the main text constitutes roughly two-thirds of the total pages, the remainder being mostly endnotes.

Pious Pursuits Michele Gillespie 2007-09-01 Recent work on the history of migration and the Atlantic World has underscored the importance of the political economies of Europe, Africa, and the Americas in the eighteenth century, emphasizing the impact

of these exchanges on political relations and state-building, and on economic structures, commerce, and wealth. Too little of this work explores culture and identity outside the Anglo-American context, especially as reflected through religious developments of radical Pietists and other Germans, the second largest group of migrants to the American colonies in the eighteenth century. This volume offers a fresh vantage point from which to examine the Atlantic World. Quick to traverse the conventional political boundaries that divided European states and American colonies, Moravians departed their homeland to form new congregations in the most cosmopolitan European cities as well as on the North American frontier. *Pious Pursuits* explores the lives and beliefs of Atlantic World Moravians, as well as their communities and culture, and it provides a new framework for analysis of the Atlantic World that is comparative and transnational.

Crafting Presence Nicole B. Wallack 2017-06-01 Essays are central to students' and teachers' development as thinkers in their fields. In *Crafting Presence*, Nicole B. Wallack develops an approach to teaching writing with the literary essay that holds promise for writing students, as well as for achieving a sense of common purpose currently lacking among professionals in composition, creative writing, and literature. Wallack analyzes examples drawn primarily from volumes of *The Best American Essays* to illuminate the most important quality of the essay as a literary form: the writer's "presence." She demonstrates how accounting for presence provides a flexible and rigorous heuristic for reading the contexts, formal elements, and purposes of essays. Such readings can help students learn writing principles, practices, and skills for crafting myriad presences rather than a single voice. *Crafting Presence* holds serious implications for writing pedagogy by providing new methods to help teachers and students become more insightful and confident readers and writers of essays. At a time when liberal arts education faces significant challenges, this important contribution to literary studies, composition, and creative writing shows how an essay-centered curriculum empowers students to show up in the world as public thinkers who must shape the "knowledge economy" of the twenty-first century.

Life-affirming Acts Hector Julio Vila 2000 *Life-Affirming Acts* is a journey into trust - trusting what students know and what teachers and students can produce when they collaborate in nurturing and creative environments. It is a unique and engaging expose of the living, working classroom and one teacher's struggle to help his students reach their spiritual and intellectual potential. According to Hector Vila, "Teaching and learning are about seeing, really seeing, deeply, penetratingly, and in an environment that nurtures the audacity we require to experience and examine, fail and criticize, and then describe." The fundamental premise of his book is that we are repressing and even rejecting the language of our students, especially in our reliance on staid and even oppressive methods of education. Vila takes a probing look at his own evolution as a teacher and emerges with fresh insight into how and why pedagogical choices are achieved. What's more, he offers a prescription for change, based upon his own experiences, with solutions and methods for confronting some of our field's most demanding issues: How do we work in crowded, inner-city classrooms where students have disparate learning backgrounds? How do we create learning environments that challenge the negativity inherent in remediation? How do we create curricula that parallel upper-level courses and still ensure that our students feel safe enough to experiment with challenging materials not usually taught in remedial courses? Keeping with postmodern sensibilities, *Life-Affirming Acts* can be read in many different ways. Readers can move cover to cover, experiencing the narrative as a whole, or section by section, focusing on classroom descriptions, the reasons for pedagogical choices, or assignments that they can

replicate and use. All in all, readers will be encouraged to join in the journey.

"I Don't See Color" Bettina Bergo 2015-06-18 Who is white, and why should we care? There was a time when the immigrants of New York City's Lower East Side—the Irish, the Poles, the Italians, the Russian Jews—were not white, but now "they" are. There was a time when the French-speaking working classes of Quebec were told to "speak white," that is, to speak English. Whiteness is an allegorical category before it is demographic. This volume gathers together some of the most influential scholars of

privilege and marginalization in philosophy, sociology, economics, psychology, literature, and history to examine the idea of whiteness. Drawing from their diverse racial backgrounds and national origins, these scholars weave their theoretical insights into essays critically informed by personal narrative. This approach, known as "braided narrative," animates the work of award-winning author Eula Biss. Moved by Biss's fresh and incisive analysis, the editors have assembled some of the most creative voices in this dialogue, coming together across the disciplines. Along with the editors, the contributors are Eduardo Bonilla-Silva, Nyla R. Branscombe, Drucilla Cornell, Lewis R. Gordon, Paget Henry, Ernest-Marie Mbonda, Peggy McIntosh, Mark Morris, Marilyn Nissim-Sabat, Victor Ray, Lilia Moritz Schwarcz, Louise Seamster, Tracie L. Stewart, George Yancy, and Heidi A. Zetzer.
