Lincoln Highway 101 John Mulhern III 2015-03-31 In this book, John Mulhern III writes about traveling a total of 6,281 miles in 15 days - a route through sixteen widely (and wildly) different states including not only stops in the the cities of New York City, Salt Lake City, San Francisco, and Denver, but also nights in the small cities and towns of Warsaw, Marshalltown, and North Platte. Adventures on the road (including mechanical issues of various sorts) yield to visits with friends old and new, encounters with various other Corvettes and other vehicles of interest, and more than a few great places to eat, sometimes in the most unexpected places. This is a book for travel lovers and most certainly for Corvette lovers, but most of all for devotees of the stunning beauty and endless variety of the United States of America. It includes several maps of the route, an annotated bibliography, and over 140 photos and illustrations, almost all in color.

Automotive Diagnostic Systems Keith McCord 2011 Keith McCord recounts the history of automotive onboard diagnostic systems and creation of the rudimentary OBD I systems and the development as well as the evolution of OBD II. Currently, OBD-II (OnBoard Diagnostic II) is the standard of the industry, and this book provides a thorough explanation of this system. It details its main features, capabilities, and characteristics. It shows how to access the port connector on the car, the serial data protocols, and what the serial data means. To understand the diagnostic codes, the numbering system is defined and the table of common DTCs is shown. But most importantly, McCord provides a thorough process for trouble shooting problems, tracing a problem to its root, explaining why DTCs may not lead to the source of the underlying problem, and ultimately resolving the problem.
