Handbook on Volunteers in Army Community Service Stanley Levin 1969 As guidance to those in charge of Army Community Service centers on military posts and to other personnel concerned with social services, the handbook offers comprehensive information on developing and administering a volunteer program for Army Community Service. The handbook stresses the encouragement of innovation, flexibility, and individual initiative both in personnel and in programs. Since ACS centers differ in many ways, the handbook discussed general guidelines and suggestions rather than detailed specifications, in order that the information can be adapted and interpreted according to local circumstances. Among the topics covered are recruiting volunteers, interviewing, preparing job descriptions and facilities, supervision, and training design.

The Ugly Laws Susan M. Schweik 2009-05-01 In the late-nineteenth and early-twentieth centuries, municipallaws targeting "unsightly beggars" sprang up in cities across America. Seeming to criminalize disability and thus offering a visceral example of discrimination, these "ugly laws" have become a sort of shorthand for oppression in disability studies, law, and the arts. In this watershed study of the ugly laws, Susan M. Schweik uncovers the murky history behind the laws, situating the varied legislation in its historical context and exploring in detail what the laws meant. Illustrating how the laws join the history of the disabled and the poor, Schweik not only gives the reader a deeper understanding of the ugly laws and the cities where they were generated, she locates the laws at a crucial intersection of evolving and unstable concepts of race, nation, sex, class, and gender. Moreover, she explores the history of resistance to the ordinances, using the often harrowing life stories of those most affected by their passage. Moving to the laws' more recent history, Schweik analyzes the shifting cultural memory of the ugly laws, examining how they have been used—and misused—by academics, activists, artists, lawyers, and legislators.

[Giving white paper](#) Great Britain: Cabinet Office 2011-05-23 British people give more than £10 billion to charities, and volunteers work tirelessly for many organisations. But the giving of both time and money has flat-lined and some in the voluntary sector warn of decline. This white paper aims to make it easier and more compelling for people to give time and money to causes they support. The Government will be investing over £40 million in volunteering and social action over the next two years. And £80 million investment in Community First will encourage social action in neighbourhoods with significant deprivation and low social capital. The Social Action Fund and Challenge Prizes will support models that make giving easier; the Local Infrastructure Fund will provide additional money to help deliver more effective support for charities and community groups. New ways to give money will include ATM giving and "Round Pound" schemes to give small amounts when paying by card. Investment will be provided for the new Philanthropy UK website and for the Do-it volunteering database. Community organisers and business connectors will galvanise social action in communities. Criminal Records Bureau checks will be reduced to common-sense levels. Inheritance tax will be reduced to 36% for those who leave 10% or more of their estate to charity. New social norms will be encouraged: Ministers will lead by example, giving a day a year to a good cause; a philanthropy committee will review candidates for honours; core funding and match funding for schools-based programmes. Changes to Gift Aid are planned.

Integrating Community Service into Nursing Education Patricia A. Bailey, EdD, RN, CS 2004-01-01 Service-learning has many definitions based on how a service program is structured in a particular institution. For this book, it is defined as a structured learning experience that combines community service with student preparation and reflection--a connecting link being established between academics and service. The central focus of this textbook is the integration of service-learning into the nursing curriculum. The contributors address the components of service-learning and its central relationship to education and curriculum and discuss issues related to service-learning by incorporating narrative comments from some from some 300 students who have participated in various service-learning programs.

Arthur W. Page Noel L. Griese 2001 Noel Griese has written the definitive biography of public relations pioneer Arthur W. Page, whose father Walter H. Page with Frank N. Doubleday in 1900 created the publishing house of Doubleday, Page & Co. Arthur Page joined the firm as a reporter on the World's Work magazine after graduating from Harvard in 1905. In 1913, when his father was named U.S. ambassador to Great Britain, Arthur Page became editor of the World's Work. He remained with Doubleday until 1926 except for one break during World War I during which he served on the propaganda staff of Gen. John J. "Black Jack" Pershing. In 1927, he left Doubleday to become the public relations vice president of AT&T, then America's largest corporation. A close friend of Henry L. Stimson, Page during World War II headed the Joint Army and Navy Committee on Welfare and Recreation, which oversaw such morale activities as the American Red Cross, USO, Yank magazine, the Stars & Stripes newspaper, Army films and other activities. He went to England in 1944 to oversee troop information for the Normandy Invasion. In 1945, he wrote the news release announcing the first use of the atom bomb at Hiroshima. Page retired from AT&T at the end of 1946. From then until his death in 1960, he was an eminent public relations consultant and a founder of Radio Free Europe. Noel Griese's biography has been selected to the Knowledge Is Power short list of the best books ever written on the subject of public relations.

Racial Uncertainties Danielle R. Olden 2022 Mexican American racial uncertainty has long been a defining feature of US racial understanding. Were Mexican Americans white or nonwhite? In the post-civil rights period, this racial uncertainty took on new meaning as the courts, the federal bureaucracy, local school officials, parents, and community activists sought to turn Mexican American racial identity to their own benefit. This is the first book that examines the pivotal 1973 Keyes v. Denver School District No. 1 Supreme Court ruling, and how debates over Mexican Americans' racial position helped reinforce the emerging tropes of colorblind racial ideology. In the post-civil rights era, when overt racism was no longer socially acceptable, anti-integration voices utilized the indeterminacy of Mexican American racial identity to frame their opposition to school desegregation. That some Mexican Americans adopted these tropes only reinforced the strength of colorblindness in battles against civil rights in the 1970s.

Arthur Morgan Aaron D. Purcell 2014-11-28 On May 19, 1933, President Franklin D. Roosevelt announced the appointment of Arthur Morgan (1879-1975), a water-control engineer and college president from Ohio as the chairman of the newly created Tennessee Valley Authority (TVA). With the eyes of the nation focused on the reform and recovery promised by the New Deal, Morgan remained in the national spotlight for much of the 1930s in this thoughtful biography Aaron D. Purcell re-assesses Morgan's long life and career and provides the first detailed account of his post-TVA activities. As Purcell demonstrates, Morgan embraced an alternative types of Progressive Era reform that was rooted in nineteenth-century socialism, an overlooked strain in American political thought. Purcell Pinpoints Morgan's reading of Edward Bellamy's Looking Backward while a teenager as a watershed moment in the development of his vision for building modern American society. He recounts Morgan's early successes as an engineer budding Progressive-leader, and educational reformer his presidency of Antioch College, and his revolutionary but contentious tenure at the TVA After his dismissal from the TVA Morgan eventually published over a dozen books, including a biography of Bellamy, while supporting community-building efforts across the globe, Morgan retained many of his late-nineteenth century beliefs, including eugenics, as part of his societal vision. His authoritarian administrative style and moral rigidity limited his ability of attract large numbers to his community-based vision. By presenting Morgan's life and career within the context of the larger social and cultural events of his day, this revealing biographical study offers new insight into the achievements and motivations of an important but historically neglected American reformer.
