**Profiles of American Colleges with CD-ROM Barron's Educational Series, 2006-07-01 Up-to-date**

*information on enrollments, tuition and fees, academic programs, campus environment, available financial aid, and much more, combine to make 27th edition of Profiles of American Colleges America's most authoritative source for information on colleges and universities. College-bound students, parents, and high school guidance counselors will find information on more than 1,650 accredited four-year colleges across the United States. A CD-ROM enclosed with each copy of this comprehensive directory presents an interactive format and lets students find individual schools by entering specific criteria. In addition to the above-cited information, each college profile gives details on admission requirements, library and computer facilities, athletic facilities, extracurricular activities, e-mail addresses, fax numbers, web sites, and more. Schools are rated according to Barron's famous competitiveness scale, from "Noncompetitive" to "Most Competitive." The book's extra section of tinted pages presents a complete, quick-reference Index of College Majors—listing all available major study programs at each school. Also profiled are many of the best-known colleges in Canada and several other countries.*

*Public Health Leadership Louis Rowitz 2013-01-28 During the last twenty years, the interest in public health leadership has continued to increase with the need to strengthen the infrastructure of public health, the events of September 11, 2001, the health reform movement, and scientific breakthroughs. The increasing role for primary care programs in the public health agenda, and the increasing deficit at the federal, state, and local level. In five parts, this book explores the basic theories and principles of leadership and then describes how they may be applied in the public health setting. Leadership skills and competencies, as well as methods for measuring and evaluating leaders are all thoroughly covered. This new third edition is an exhaustive revision that now includes extensive coverage of the leadership skills and tools that are critical to managing public health emergencies.*

*Cornerstones of Cost Management Don R. Hansen 2017-01-27 Hansen/Mowen's CORNERSTONES OF COST MANAGEMENT, 4E demonstrates the dynamic nature of cost accounting in today's changing business environment. The book covers functional-based cost and control, and then activity-based cost systems, giving students the skills to manage any cost management system. **Winning at Active Management William W. Priest 2016-07-07** *Winning at Active Management* conducts an in-depth examination of crucial issues facing the investment management industry, and will be a valuable resource for asset managers, institutional consultants, managers of pension and endowment funds, and advisers to individual investors. Bill Priest, Steve Bleiberg and Mike Welhoelter all experienced investment professionals, consider the challenges of managing portfolios through complex markets, as well as managing the cultural and technological complexities of the investment business. The book's initial section highlights the importance of culture within an investment firm - the characteristics of strong cultures, the imperatives of communication and support, and suggestions for leading firms through times of both adversity and prosperity. It continues with a thorough discussion of active portfolio management for equities. The ongoing debate over active versus passive management is reviewed in detail, drawing on both financial theory and real-world investing results. The book also contrasts traditional methods of portfolio management, based on accounting metrics and price-earnings ratios, with Epoch Investment Partners' philosophy of investing on free cash flow and appropriate capital allocation. *Winning at Active Management* closes with an inquiry into the crucial and growing role of technology in investing. The authors assert that the most effective portfolio strategies result from neither pure fundamental nor quantitative methods, but instead from thoughtful combinations of analyst and portfolio manager experience and skill with the speed and breadth of quantitative analysis. The authors illustrate the point with an example of an innovative Epoch equity strategy based on economic logic and judgment, but enabled by information technology. *Winning at Active Management* also offers important insights into selecting active managers - the market cycle factors that have held back many managers' performance in recent years, and the difficulty of identifying those firms that truly possess investment skill. Drawing on behavioral economic theory and empirical research, the book makes a convincing case that many active investment managers can and do generate returns superior to those of the broad market.
