And two other scientists employed by the same American forecasting institute have died in suspicious circumstances. Never Go Back Robert Goddard 2010-01-26 'The master of the clever twist' Sunday Telegraph Harry Barnett thought he had left his military career behind, so he is startled when two figures from his past turn up on his doorstep after fifty years. An old friend has organised the reunion to end all reunions: a weekend in the Scottish castle where the ex-comrades took part in a psychological experiment many years before. They haven't seen each other since. As they set off on their all-expenses-paid jaunt to Aberdeen, the old friends are in high spirits. But the cheerful atmosphere is quickly shattered by the apparent suicide of one of their party. When a second death occurs, a sense of foreboding descends on the group. It appears that the past is coming back to haunt them, a past that none of them have ever spoken about. Their recollections are all frighteningly different. So what really happened? Then when one of them uncovers an extraordinary secret, he becomes convinced that they will never leave the castle alive...

The Ways of the World Robert Goddard 2016-06-14 From the Edgar Award-winning writer Robert Goddard comes a captivating new historical thriller, set at the tail end of World War I and featuring the devilishly charismatic James "Max" Maxted, a Royal Flying Corps veteran who has a knack for getting himself in trouble. In the spring of 1919, Paris is filled with delegates working towards the Treaty of Versailles--British diplomat Sir Henry Maxted among them. But before his work is done, he turns up dead outside a Montparnasse apartment building. The French police conclude that Sir Henry tripped and fell from the roof, but when his son Max is sent to Paris to collect the body, it quickly becomes clear that there is more to the story, starting with the beautiful woman whose apartment Sir Henry often visited. What begins as an innocent inquiry into his father's death soon leads Max into a perilous world of secret allegiances, international espionage, and double- and triple-crosses. The Ways of the World is a vivid, visceral thriller at the crossroads of history, where one spilled secret has the power to change the fate of empires.

Historical Noir Barry Forshaw 2018-04-26 It's one of the most successful - and surprising - of phenomena in the entire crime fiction genre: detectives (and proto-detectives) solving crimes in earlier eras. There is now an army of historical sleuths operating from the mean streets of ancient Rome to the

Cold War era of the 1950s. And this astonishingly varied offshoot of the crime genre, as well as keeping bookshop tills ringing, is winning a slew of awards, notably the prestigious CWA Historical Dagger. Barry Forshaw, one of the UK's leading experts on crime fiction, has written a lively, wide-ranging and immensely informed history of the genre, which might be said to have begun in earnest with Ellis Peters' crime-solving monk Brother Cadfael in the 1970s and Umberto Eco's *The Name of the Rose* in 1980 (with another monkish detective), but which has now taken readers to virtually every era and locale in the past. As in earlier entries in his Noir series, Forshaw has produced the perfect reader's guide to a fascinating field; every major writer is considered, often through a concentration on one or two key books, and exciting new talents are highlighted. 'Historical Noir covers crime novels (and their authors) set in ancient Greece and beyond to the 1950s ... what a splendid, varied bunch Forshaw provides' - Times 'A very worthy addition to this great series' - Crime Squad Look out for the other books in Barry Forshaw's Noir series, Euro Noir, Nordic Noir, Brit Noir and American Noir, and for his latest book, *Crime Fiction: A Reader's Guide*.

The Corners of the Globe Robert Goddard 2014-07-03 Spring, 1919. James 'Max' Maxted, former Great War flying ace, returns to the trail of murder, treachery and half-buried secrets he set out on in The Ways of the World. He left Paris after avenging the murder of his father, Sir Henry Maxted, a senior member of the British delegation to the post-war peace conference. But he was convinced there was more - much more - to be discovered about what Sir Henry had been trying to accomplish. And he suspected elusive German spymaster Fritz Lemmer knew the truth of it. Now, enlisted under false colours in Lemmer's service but with his loyalty pledged to the British Secret Service, Max sets out on his first - and possibly last - mission for Lemmer. It takes him to the far north of Scotland - to the

Orkney Isles, where the German High Seas Fleet has been impounded in Scapa Flow, its fate to be decided at the conference-table in Paris. Max has been sent to recover a document held aboard one of the German ships. What that document contains forces him to break cover sooner than he would have wished and to embark on a desperate race south, towards London, with information that could destroy Lemmer - if Max, as seems unlikely, lives to deliver it...

Apollo 11 The Associated Press 2016-08-23 In this fascinating history of the Apollo 11 mission, The Associated Press chronicles America ' s journey to the moon. In 1957 the Soviet Union sent Sputnik, the first man-made satellite, into space. America took up the challenge to explore the next frontier. A dozen years, and 25 billion dollars later, the mission of Apollo 11 would yield man ' s finest hour. For that was the first time man ' s foot left prints on another heavenly body. And that was only the beginning. " Apollo 11: How America Won the Race to the Moon " is the incredible story of how a nation forged the

technology during the turbulent 1960s to slip humanity from the bonds of its native planet. This inside look remembers those who made the great enterprise succeed. The achievement of the astronauts, especially Neil Armstrong, Buzz Aldrin, and Michael Collins, was more than a victory for the United States; it was a triumphant moment for all mankind. And no other moment will seem as big until we reach beyond the moon for other planets, other stars. "Apollo 11: How America Won the Race to the Moon" features an introduction by AP's Aerospace Correspondent Marcia Dunn and select photographs from the archives of The Associated Press.
