Spacing Out Activity Guide Stephie McCumbee 2015-02-01 Lessons for Common Core and Social Skill Development "Pay attention!" If your students' minds are wandering, teach them skills to stay focused and reach goals. More than 20 classroom-friendly lessons include behavior management tools that teach kids how to complete tasks successfully and on time. The activities in this book support Common Core and Academic literacy standards and are designed to accompany the Spacing Out! picture book. Using the story as a stimulus, students will explore making predictions, comparing characters, cause and effect, sequencing, and making story maps. Discussion questions relating to the story help students develop critical thinking skills and determine the positive outcomes for completing tasks, and the negative consequences of becoming distracted. Additional activities reinforce social skill development for setting goals, identifying things to work on, coping with distractions, and celebrating success. The activities are appropriate for K-5 classroom and can be used with individuals, small groups, or large groups. Educators will appreciate the easy-to-use activities, with step-

by-step instructions, lists of materials, worksheets, and answer keys. The CD includes ready-to-print worksheets, handouts, and reward coupons.

One-Sheet-A-Day Math Drills Neki C. Modi This One-Sheet-A-Day math drill workbook is for 4th grade students who want extra practice with two digit multiplication. It contains 200 math practice sheets, one for each school day of the year. Upon completion, the student will be more competent in 4th grade mathematics and ready to proceed with more difficult exercises. Unlike other math drill books, this is one of 24 workbooks created to establish a daily routine for each student to practice on their own from grades 1 through 7. It is specifically designed to gradually increase mathematic ability with the least amount of stress for both parent and student. Kids need to practice at home to support what they are learning in school, but finding resources to help with that goal can be daunting. It takes a lot of time searching online for free resources to print or for books with enough exercises. Beyond that, the options include going to libraries, enrolling them in an afterschool class or hiring a personal tutor. Who has the time and money for all of that? The answer is, not many parents. Each and every parent wants to provide enough practice work to their kids, but on top of the challenges in finding resources, questions remain about how much practice a child needs to boost educational success: twenty sheets of practice work a day? One sheet a week? What's the optimum practice work during a whole academic year? Confused? The authors have a decade of classroom expertise and have spent a large amount of time researching and wasting resources trying all the options for their own kids. Now you can benefit from what they have learnt. The result is finding out that "ONE-SHEET-A-DAY" is the optimum way to support classroom learning, and it is amazingly simple. This book eliminates the need to take home prints or run around franchises, bookstores and libraries trying to find enough material. It also prevents you from overwhelming your kids with too many math drill worksheets. There are approximately 200 school days a year. Simply have your child complete ONE per day. Work is far easier when it is part of a routine, especially for kids. The One-Sheet-per-Day program is an easy routine to start and maintain because it takes less than 20 minutes per day, using basic skills your child already knows. Simply take one sheet from the book, ask your child to complete it in a quiet place, and return it to you to check the answers, a painless routine for you and your child, and instant feedback for both of you. Geared to follow most math curriculums, most kids can do the appropriate sheet on their own based on what they are learning at school. "One-Sheet-A-Day" math practice drills will give your child practice they need to score higher on test day, and build confidence in their math abilities.

High-Frequency Picture Words: Match and Print Staci Marck 2014-06-01 ****This is the chapter slice "Match and Print" from the full lesson plan "High-Frequency Picture Words"***** Increase vocabulary, sight word recognition and comprehension as you help your students identify 120 common nouns using real life pictures as an aid. Picture associations will aid young readers in developing anchor words to increase their oral and written language. We also highlight high frequency words which encourage beginning skills for reading. As students begin to read and build their picture word knowledge, they will build a bank of known vocabulary words that will aid them in beginning to read and spell. Many of these picture words can be used to help spell similar words by analogy. Boxes are used to help students come to understand that words can be recognized by the shapes of their letters, as they contain small, tall or hanging letters. Color graphic organizers and a comprehension quiz are included. All of our content meets the Common Core State Standards and are written to Bloom's Taxonomy.
