Enid Blyton Andrew Mauder 2021-12-02 This book is a study of the best-selling writer for children Enid Blyton (1897-1968) and provides a new account of her career. It draws on Blyton's business correspondence to give a fresh account of a misunderstood figure who for forty years was one of Britain's most successful and powerful authors. It examines Blyton's rise to fame in the 1920s and considers the ways in which she managed her career as a storyteller, journalist and magazine editor. There is discussion of her most famous series including the Famous Five, the Secret Seven, Malory Towers and Noddy, but attention is also given to lesser-known works including the family stories she published to acclaim in the 1940s and early 1950s, as well as her attempts to become a dramatist. The book also discusses Blyton's fluctuating critical reputation, how she and her works were received and how Blyton the person has fared at the hands of biographers and the media.

Fats Michelle Phillipov 2016-06-15 Butter, oil, tallow, lard, schmaltz—nutritionally crucial yet often vilainized, at once rich yet cheap, fat is one of the most paradoxical categories of foods we consume. Shaping every cuisine on earth, fats in their various forms come with myriad cultural and symbolic meanings, playing an important role for a variety of people, from poor farmers to decadent aristocrats. Fats tells the story of this extraordinary substance—alternately reviled and revered but nonetheless always a crucial part of our diets. Michelle Phillipov considers the changing fates and fortunes of fats across time and around the globe. From their past associations with prestige and social authority to their links to fast food and overindulgence in modern times, she explores the different meanings, debates, and controversies that have surrounded this staple food, which has been both an invaluable source of nutrition and the bane of public health concerns. She also looks to its current renaissance in media and popular culture and the renewed appreciation it enjoys as an important part of traditional foodways that stretch back all the way to prehistoric times, when the Paleo diet was even more popular than it is today. Dripping with recipes from around the world, Fats reveals and celebrates that one ingredient that makes everything taste better.

Looking For Enid Duncan McLaren 2012-09-06 This is a strikingly inventive and unusual portrait of the most successful English writer for children (until J. K. Rowling), Enid Blyton, who entertained millions worldwide with her myriad adventure stories and mysteries but was herself both an adventure and a mystery. This book is for everyone who ever wondered what kind of woman Enid Blyton was. Enid Blyton gave us the Famous Five and Fatty's Find-Outers, the Enchanted Wood and the Wishing Chair. Some of us, encouraged by austere critics, have pretended no longer to want what Enid gave. We have pretended that we were not once upon a time enthralled by her stories. We have chosen to forget how much we loved the time we spent in their company. And we have feigned disdain. Now, Duncan McLaren offers lapsed devotees the possibility of honest redemption. If you're willing to acknowledge that Enid Blyton once mattered to you, you are warmly invited to accompany Duncan on an adventure that will investigate what made Enid Enid and endeavour to reach the source of her torrent of stories, those that came when she was 'letting her mind go free'.

Plotting Disability in the Nineteenth-Century Novel Walker Gore Clare Walker Gore 2019-11-01 Examines the significance of disability in nineteenth-century fiction Offers new insights into how disability shapes plot in nineteenth-century fiction Investigates the impact of a developing social category on the form of the novel, opening up ways of thinking about the intersection between novelistic characterisation and categories of social organisation Offers new readings of well-known novels by major writers such as Dickens, Eliot and James and brings these texts into conversation with work by more marginalised figures such as Yonge and Craik, considering the relationship between canon formation and the representation of disability This book takes an exciting new approach to characterisation and plot in the Victorian novel, examining the vital narrative work performed by disabled characters. It demonstrates the centrality of disability to the Victorian novel, demonstrating how attention to disability sheds new light on texts' arrangement and use of bodies. It also argues that the representation of the disabled body shaped and signalled different generic traditions in nineteenth-century fiction. This wide-ranging study offers new readings of major writers including Charles Dickens, Wilkie Collins, George Eliot and Henry James, as well as exploring lesser known writers such as Charlotte M. Yonge and Dinah Mulock Craik.
